MODULAR AND
SCALABLE
CONFIGURATION

For
attractive
payouts

MEGA PAY is a feature of the roulette game that gives players the option to choose from alternative, attractive payouts, offering the chance for larger winnings by hitting a designated fall number. Immediately after the "No more bets" announcement, potentially winning numbers with their coefficients are randomly selected and displayed on the roulette.

Multigame

Enables players to play the best Fazi slot games in addition to the acclaimed roulette, making this innovative solution a very attractive proposition for operators and players. Fazi slot games are linked to their own Mystery Jackpot which is fully configurable.

- Attractive Fazi and Novomatic slot games from the online environment
- Enables players to play multiple games at the same time
- Slot games are linked to the Mystery Jackpot

Lucky Number Jackpot

It's a two level jackpot connected to the roulette game. To win the jackpot, certain conditions need to be met. Jackpot hold is settable in accordance with the operator's needs. The goal is to increase average bets and to extend the play time at the roulette.

- Two level Jackpot connected to the roulette game.
- Increased average bets and playing time.

Virtual Roulette

Enables players to enjoy a virtual roulette game along with the real roulette game, while offering them a fast paced and attractive gaming experience.

- Attractive and fast paced virtual roulette game.
- Can be played in parallel with the automated roulette game.

Choose between a Single Zero or Double Zero wheel
for an outstanding gaming experience.

Single Zero European Wheel

Double Zero American Wheel
